Our courses

We offer a series of courses which are specifically adapted to our students' interests – tourism, business, exam preparation, etc.

All levels take place **exclusively in Spanish** and we carry out interactive activities so that the student is our focus at all times.

We will combine oral practice and grammar explanations, and common communicative situations as well as everyday vocabulary will be worked upon.

Independent learning will be encouraged by the provision of the adequate tools to improve linguistic skills outside the classroom context. We will also encourage the organization of cultural activities to acquaint our students with the wonderful culture of Spain and Madrid.

Courses are **four weeks to nine months** long - October through June.

PICK YOUR OWN COURSE

We offer various courses which adapt to practically all needs. We can even customize a course for you as long as there are at least four students in your party. Depending on demand, we will schedule morning or afternoon-evening courses. Registration fees include all books and materials used in the course.

TAPAS AND FIESTA SPANISH

For students wanting to communicate with Spaniards in a colloquial context. Especially appropriate for students and adventure-seekers who travel around our country looking for new experiences and who want to get to know our unique culture.

BUSINESS SPANISH

Suited for professionals who need the Spanish language in a work context. We will practice work situations – such as meetings, presentations, etc. – using business language.

MANO A MANO

One-on-one classes for those who decide to propel their level and find a spot in one of our group courses. Also, if you'd rather work one-on-one with a teacher, this is your option!

DUO

Couple classes. Ideal for those who have already found their linguistic soul mate. Both participants should prove a similar level in order to guarantee adequate learning.

EXAM PREP

If you have already set your goal and you only need some professional help to reach it, do not hesitate to contact us. We have broad experience in DELE preparation (Instituto Cervantes).

CUSTOMIZED COURSES

You haven't found the right course yet? Just let us work on it. Tell us which abilities you would like to improve and how much time you can spend. We will create a course you can follow in the group version (four to eight participants), duo or one-on-one. Just contact us.
